Study Smart

Your essential guide to passing tests and exams

Karen Tui Boyes

By the author and creator of internationally acclaimed: *Teachers Matter Conference, Teachers Matter Magazine, Kids Matter Conference, The Study Smart Method, Study Smart Workshops, and the Habits of Mind Bootcamp.*

You'll discover easy ways to:

- incorporate individual learning styles for any kind of test preparation – from drivers license tests to medical exams;
- be study fit, in mind and body, so that you are truly ready to pass all your exams; and
- improve your reading, focus and memory so that your understanding of what you most need to learn is dramatically enhanced.

Study skills for kids, young adults, college students, and anyone committed to lifelong learning is as necessary now as the lunch pack and school bag. Drawing on advanced cognitive learning styles, psychology and pedagogy, this is a book that teachers, parents and students can all take value from.

Project Genius

BIG Learning for Young Geniuses

Karen Tui Boyes

Project Genius provides a practical, step-by-step guide to implementing 'Genius Hour' in your classroom to foster opportunities for students to develop ownership, time and resource management, accountability, and so much more in a real-world context.

***Project Genius* will walk you through:**

- The 7 steps of 'Genius Hour', which provide a clear structure and pathway from beginning to end.
- Practice protocols for giving presentations and feedback.
- Solutions to common challenges and ways to assist struggling students.
- Ways to enrol and engage parents in the process.
- The skills and dispositions that will enhance students, lifelong learning.
- Five teachers' perspectives of how this process works and operates in their classrooms, their top tips and advice to get you thinking about possibilities in your classroom.

If you want to maximise your students' learning, in a real world way – this book is for you!

Continued over page ...

Contents:

Part One: Project Genius

- 1: Benefits of Genius Hour
- 2: The Process of Genius Hour
- 3: The Mechanics of How
- 4: Assessment
- 5: Common Challenges
- 6: Struggling Students
- 7: Explaining to Parents

- 8: Underlying Assumptions
- 9: Final Thoughts

Part Two: Practical Ideas from the Classroom

Chapters 10–14: Input from teachers on the impact, challenges, and bigger picture perspective of *Project Genius*.

This valuable book provides a step-by-step guide for teachers who wish to teach their students how to plan, organise, and present project-based learning. But more than that, as they are working, students transcend the project to also learn the 21st century skills of collaboration, creativity, communication and critical thinking. These are the learnings that they will use not only in school but also as they confront complex problems in their future world.

About the Author

Karen Tui Boyes is leading the revolution of assisting students to learn, teachers to teach and advancing anyone's ability to understand the information needed to pass exams. Karen has presented her workshops across five continents, to more than 200,000 audience members, and countless

schools. Her Study Skills methods help with exam preparation by teaching simple but strategic learning skills.

A sought-after speaker who continually gets rave reviews from audiences around the world, Karen turns the latest educational research into easy-to-implement strategies and techniques. Karen has the rare ability to draw her audience in and keep them enthralled. She is both informative and entertaining as she passes on her practical solutions for learning, teaching, studying, living, working, communicating and growing more effectively as a person. Karen creates an environment where it is fun to learn and it is safe to make mistakes. This encourages participants to be relaxed and totally involved, and is proven to produce outstanding results.

Karen uses a unique blend of music, colour, games, stories and activities, giving students a mixture of learning tools and an improved self-awareness. Using this new information maximises the yearn-to-learn, and the ability to recall and retain information. Thousands of students throughout Australasia have benefited from these techniques and have gone on to score well beyond what they thought they were capable of at exam time.

At the corporate level, Karen works in the areas of motivation, effective communication, and attaining and maintaining peak performance. Together these create a friendly, fun environment where superior results are achieved by working smarter rather than harder, with less stress and increased team work.

Karen is also CEO of Spectrum Education, Affiliate Director of the Institute for the Habits of Mind, NZ Educator of the Year 2017 & 2014, NZ Speaker of the Year 2013, NZ Business Woman of the Year 2001, and a wife and mother.

Karen Tui Boyes is a champion for lifelong learning across nations, industries and organisations.
